EDS	Electronic Delivery Solution	12
CTI	Computer Telephony Integration	16
DVS	Digital Verification Solution	20
CON	Connector Apps	24
	Services	34

The following licenses are required for the Simova document management solution.

## Additional Information | DMS

The Simova document management solution interacts with the Microsoft SharePoint or Azure Blob Storage as a repository. The Microsoft SharePoint or Azure Blob Storage environment must be licensed separately. The IT department of the final customer of the related partner will have to take care about it.

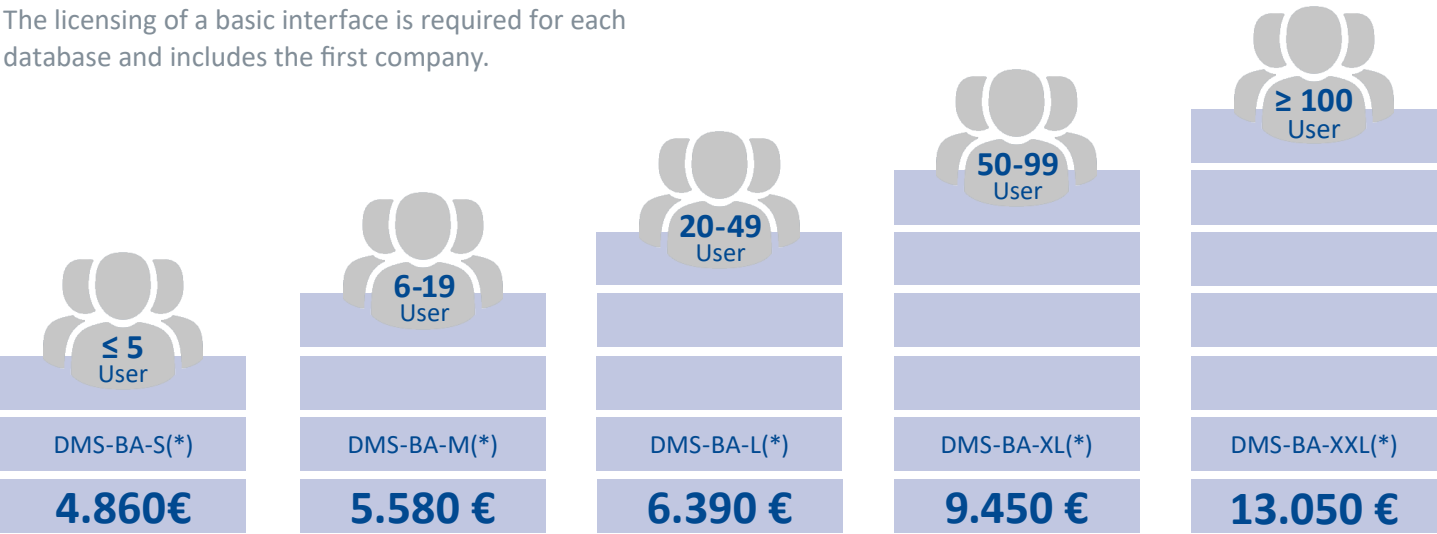

The following versions of Microsoft SharePoint are supported:

- Microsoft SharePoint Server (On-Premise)
  - » Version 2013 or higher
  - » Edition Standard, Enterprise and Foundations (2013)
- Microsoft SharePoint Online
  - » Integrated in Microsoft O365. Please check if your Microsoft O365 plan has SharePoint Online included
- Microsoft SharePoint is located in a hosted environment

## Perpetual Licensing | DMS

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | DMS

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional DMS company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for the Simova data publishing solution.

**Additional Information | DPS**

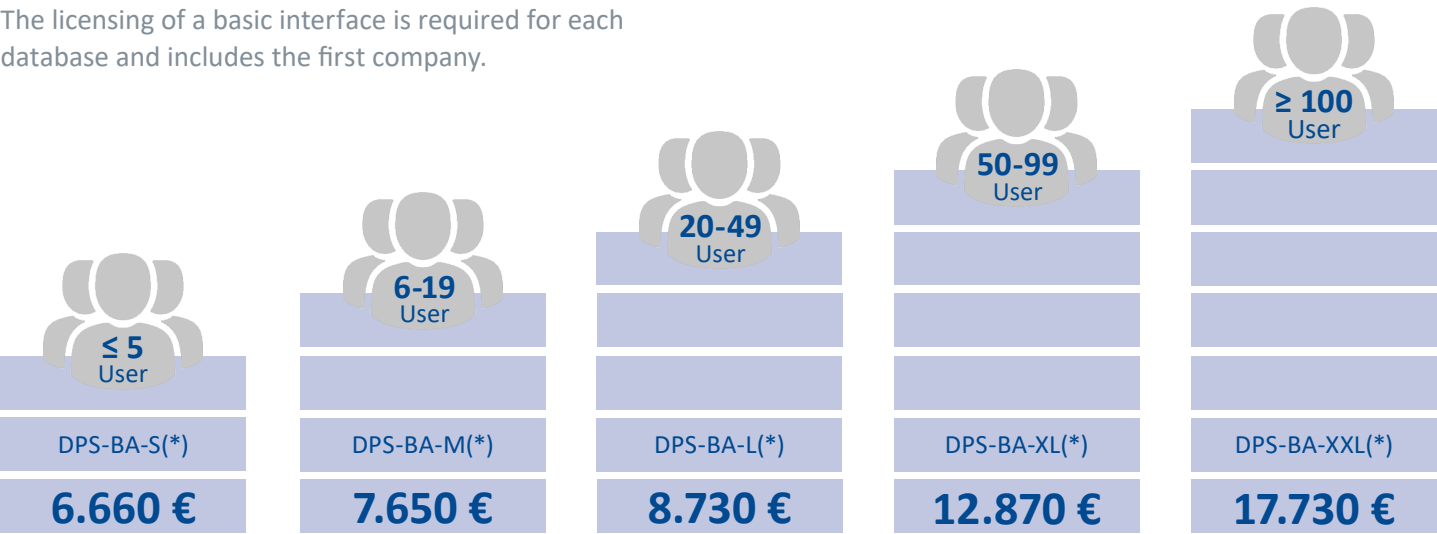

The Simova data publishing solution requires a Microsoft Internet Information Server (IIS). This server is a role of the Microsoft Windows Server. The Microsoft Windows Server has to be licensed separately.

## Perpetual Licensing | DPS

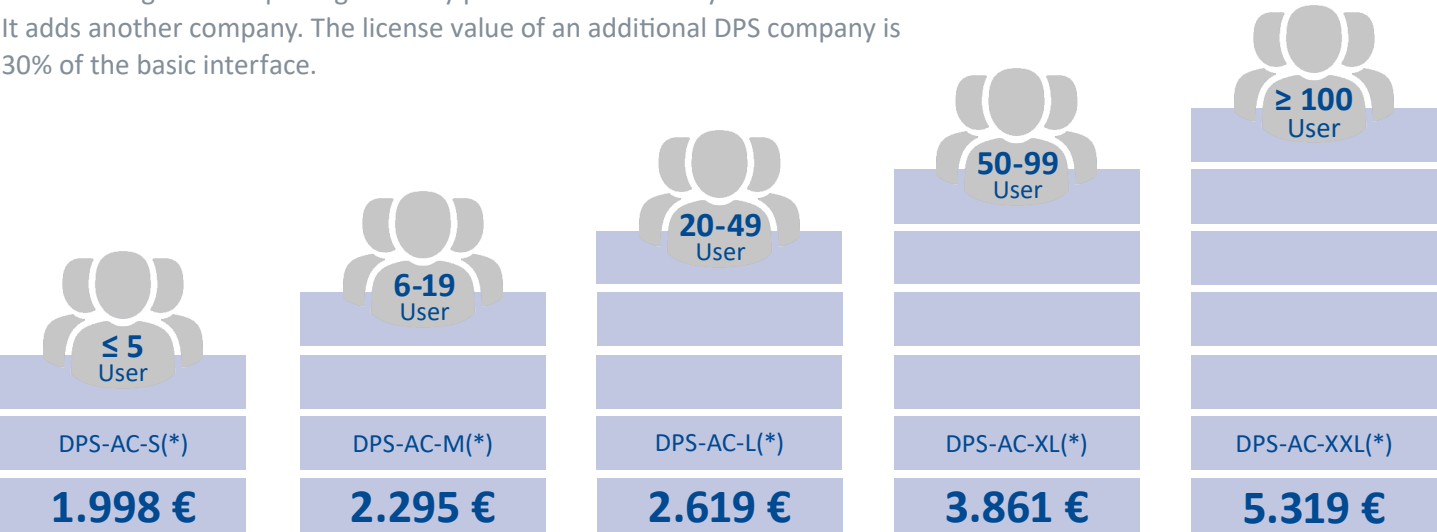

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | DPS

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional DPS company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for the Simova electronically delivery solution. To use the ZUGFeRD & XRechnung connection you need the XSD module (XML Scheme Definition). For new customers this is already included in the price, current customers can purchase a license extension.

### Additional Information | EDS

Simova GmbH does only offer the license and the configuration of the product EDS.  
For the implementation you will need a completely configured email server. It has to be licensed and set up separately.

## Perpetual Licensing | EDS incl. XSD (XML Schema Definition)

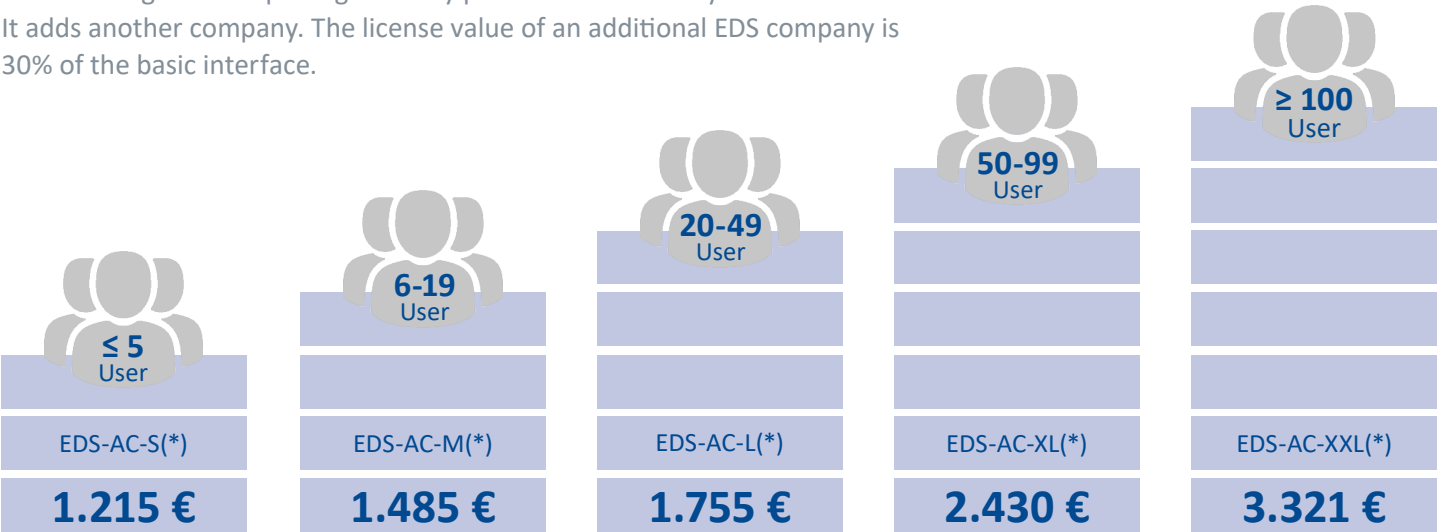

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | EDS incl. XSD (XML Schema Definition)

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional EDS company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

The following licenses are required for the Simova computer telephony integration.

**Additional Information | CTI**

CTI by Simova connects your Microsoft Dynamics 365 Business Central with Microsoft Teams or your TAPI-ready telephone system. The configuration of the respective telephone system has to be taken care of by the IT service provider of the final customer. The telephone system (TAPI if applicable) has to be licensed separately.

## Perpetual Licensing | CTI

The licensing of the basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Company | CTI

The licensing of this package is only possible in an already licensed database. It adds another company with 2 users. The license value of an additional CTI company is 30% of the basic interface.

## Additional Users | CTI

CTI Basic License required.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing, the payment is due once, excluding the update and maintenance fee.

Unlike in our other license modules, the term “user” does not refer to the total amount of Full Users that are licensed in your database. The choice of the package indicates the number of users that are meant to use the solution.

If you want to increase the number of CTI users in the future, you can easily add them by purchasing the additional users package which contains the required amount of CTI users.

All prices are subject to change within 30 days without notice.

The following licenses are required for the Simova digital verification solution.

### Additional Information | DVS

Simova GmbH does only offer the license and the configuration of the product DVS.  
If you want the notification service, you need to have a configured email server.

## Perpetual Licensing | DVS

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | DVS

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional DVS company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed NAV users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

# CONNECTOR APPS

The following licenses are required to connect Simova Extensions to each other or to a third-party tool.

The following Simova Connector Apps are available:

- DMStoEDS by Simova
- DMStoDPS by Simova
- DMStoDC by Simova (Document Capture by Continia)
- DVStoDC by Simova (Document Capture by Continia)

## Additional Information | Connector Apps

For all Simova Connector Apps, both basic products that are meant to be connected have to be licensed too. Document Capture has to be licensed by Continia.

## Perpetual Licensing | DMS to EDS

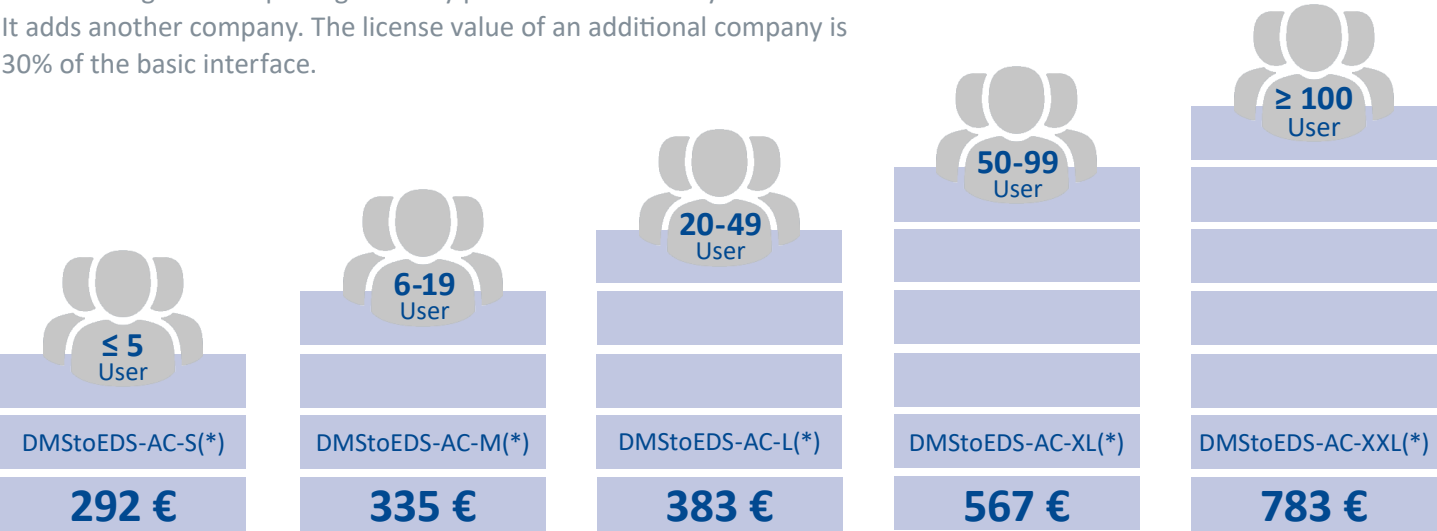

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | DMS to EDS

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

## Perpetual Licensing | DMS to DPS

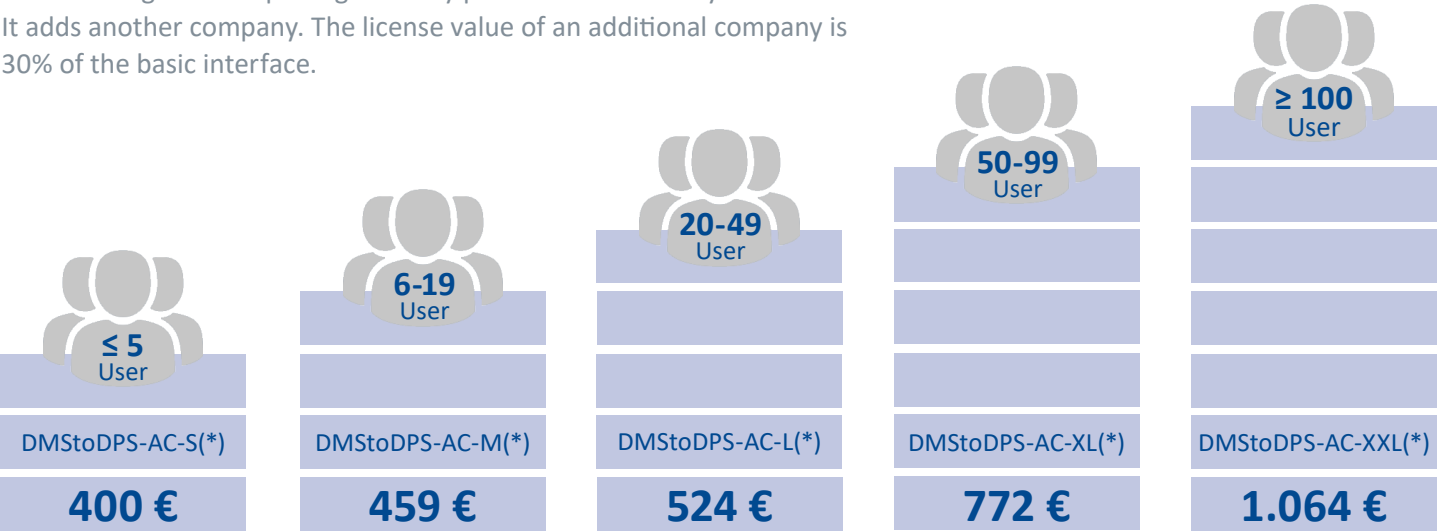

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

## Additional Companies | DMS to DPS

The licensing of these packages is only possible in an already licensed database. It adds another company. The license value of an additional company is 30% of the basic interface.

All prices are net excl. of VAT.

(\*) The update and maintenance fee is 1,9166667% of the license list value per month.

With the perpetual licensing the payment is due once excluding the update and maintenance fee.

The term “user” refers to the total amount of Full Users that are licensed in your database. The choice of the package does not depend on the number of users that are meant to use the solution.

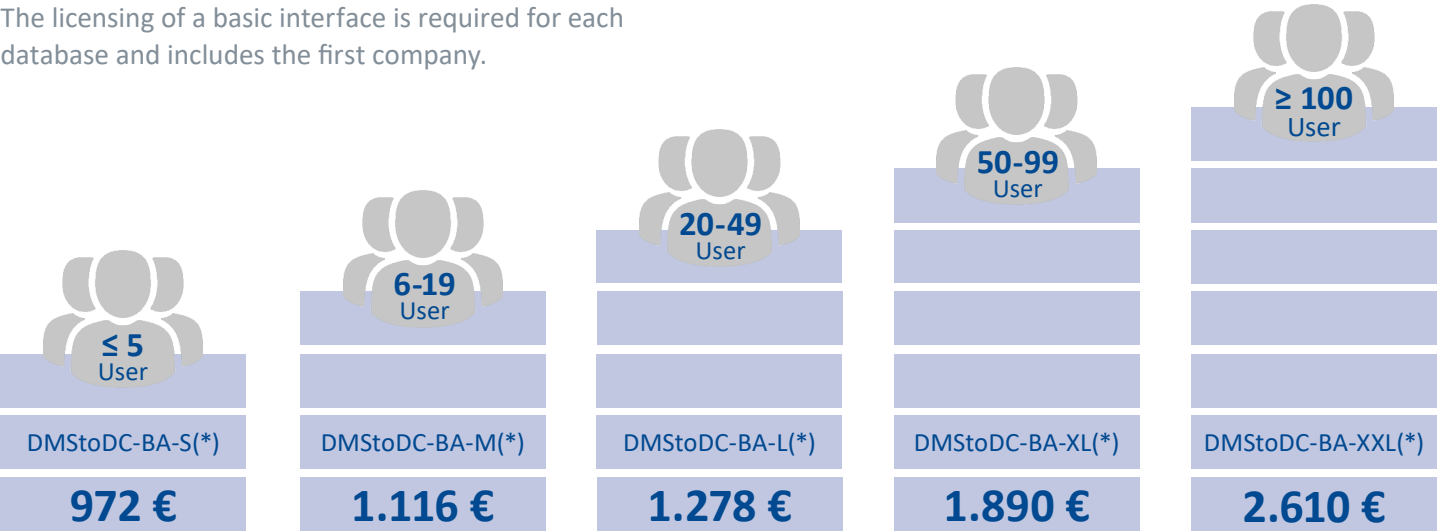

If the amount of licensed users is exceeded, the differential amount of your current package and the newly applicable package will be charged in the following month. The update and maintenance fee will also increase according to the new user package.

All prices are subject to change within 30 days without notice.

Perpetual Licensing | DMS to DC (Document Capture by Continia)

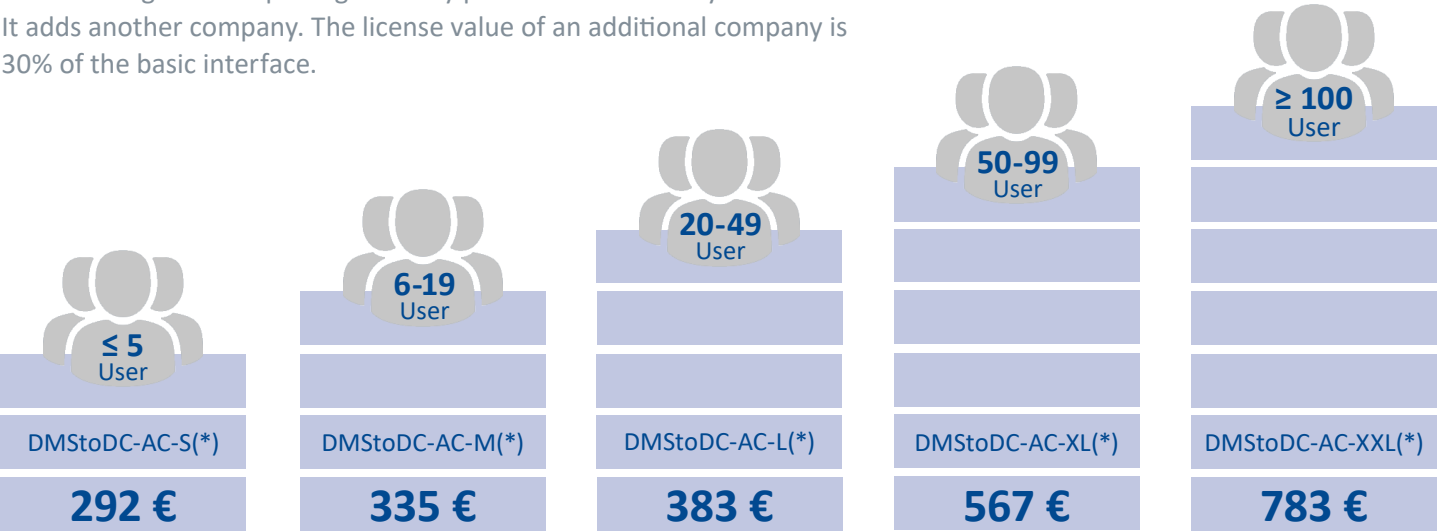

The licensing of a basic interface is required for each database and includes the first company.

All prices are net excl. of VAT.

Additional Companies | DMS to DC
